

TECHNICAL CHARACTERISTICS

AGRAIN® GRATING

2 GRAIN SIZES	
G24 height	0.8 mm
G47 height	1.2 mm

Base

Steel sheet S235JRG2 galvanized thickness: 2mm perforated 16/23

Dimensions

Standard 240x2000mm, height 35mm

Non slip surface

Angular cast iron particles, hardness 60 H.R.C.

Binder

Tin based welding

Laying options

- Indoors
- Outdoors (in mildly corrosive area)

Key points

Non-slip steps for standard or tailor-made staircases.

Ideal where there may be deposits of grease, oil, powder, water or other fluids...

Resistant at ambient temperatures and to temperatures up to 170°C.

Technical tests

Friction coefficient*: 0.67 μ d

**measured by the French national institute of research and safety (INRS test report IET/09RI-270/HS December 2009) to prevent workplace accidents and occupational diseases, test conducted in the presence of a lubricating agent (mineral oil)*
